SUBJECT INDEX

ABORTION in cattle caused by *Salmonella dublin:* incidence and epidemiology, 94
Aeromonas salmonicida, possible mis-identification of in fish, 663
"A hundred years on", 265
Amino acids, equine plasma, effect of oral or caecal administration of protein supplements on, 466
Amino acid, the influence of dietary pattern on free choice food selection in pigs. (Food intake regulation in pigs. V), 707
Anaesthetized newborn percheron foals, respiration in at a medium altitude of 1300 m, 40
Artificial insemination in Botswana, 385
Azaperone, the effect of on post-mortem changes in pig and rabbit skeletal muscle, 102
Azaperone and metomidate, influence of on cardiovascular and respiratory functions in the pony, 50
Babesia bigemina infection, experimental, in calves, studies on imidocarb dihydrochloride in, 666
Babesia equi (Laveran, 1901) infection in Chile, equine piroplasmosis: leukocytic response to, 601
BCG vaccine, first results of the field use of, to control bovine tuberculosis in Malawi, 186
Behaviour, research in farm animal, 272
Benzathine cloxacillin and erythromycin, used in dry cow therapy, 639
Blood composition of dairy calves reared under conventional and rapid-growth systems, 436
Book reviews:
  Avian anatomy: integument (Alfred Lucas & Peter R. Stettenheim), 621
  Blood coagulation and its disorders in the dog (D. E. Hall), 252

Cat anatomy. An atlas, text and guide (R. C. McClure, M. J. Dallman, P. G. Garrett), 619
Color atlas of the diseases of fishes, amphibians and reptiles (E. Elkan & H. H. Reichenback-Klinke), 619
Comparative animal physiology (ed. C. Ladd Prosser), 254
Farm animal behaviour (Andrew F. Fraser), 367
Fungal diseases of domestic animals (G. C. Ainsworth & P. K. C. Austwick), 252
Hagan's infectious diseases of domestic animals (D. W. Bruner & J. H. Gillespie), 365
Lame horse: causes, symptoms and treatment, The (James R. Rooney), 255
Motivation of human and animal behaviour: an ethological view (Konrad Lorenze & Paul Leyhausan), 619
Radiological diagnosis of canine and feline emergencies, The (Sten-Erik Olsson), 364
Stereoscopic atlas of opthalmic surgery of domestic animals (Harlan E. Jenson), 619
Textbook of large animal surgery (ed. F. W. Oehme & J. E. Prior), 253
Textbook of meat hygiene (H. Thornton & J. F. Gracey), 366
Veterinary medicine (D. C. Blood & J. A. Henderson), 365
Border disease in sheep, observations on the experimental transmissibility of, 32
Border disease of sheep. Comparison of the results of serological testing using complement fixation, immunodiffusion, neutralization and immunofluorescent techniques, 427
Botswana, artificial insemination in, 385
Bovine cutaneous besnoitiosis in the Sudan: a case report, 85
Bovine ephemeral fever, mid-piece abnormalities in bovine semen following experimental and natural cases of, 536
Bovine tuberculosis, an abattoir survey of, in the Karamoja region of Uganda, 120
British breeds of sheep in an equatorial environment, reproductive performance of. III. Further data on imported progeny, 23
British Veterinary Journal, The, George Fleming, C.B., LL.D., F.R.C.V.S., founder of, 290
Brucella abortus and *Yersinia enterocolitica* antigens, stimulation of protective immunity to *Salmonella* Kauffmann-White group N serotypes by, 625
Brucellosis, the effect of natural infection with *Salmonella urbana* on the serological status of cattle in relation to tests for, 324

Calcium and phosphorus, an apparent reduction in the incidence of milk fever achieved by regulation of the dietary intake of, 741
Calves:
blood composition of dairy calves, reared under conventional and rapid-growth systems, 436
development of puberty in the white Fulani (*Bos indicus*) bull calf, 146
experimental *Solanum malacoxylon* poisoning in, 175
leukovirus isolated from cells obtained from leukemic calf lymph nodes, 499
Neonatal calf diarrhoea: identification of a reovirus-like agent in faeces by immunofluorescence and immune electron microscopy, 528
studies of neonatal calf diarrhoea. I. Fluid balance in spontaneous enteric colibacillosis, 190
studies of neonatal calf diarrhoea. II. Serum and faecal immune globulins in enteric colibacillosis, 402
studies of neonatal calf diarrhoea. III. Water balance studies in neonatal salmonellosis, 643
studies on Imidocarb dihydrochloride in experimental *Babesia bigemina* infection in, 666
Campylobacter (vibrio) coli and *Treponema hyodysenteriae*, the possibility that both are involved in swine dysentery, 335
Carbonic anhydrase activity in the abomasal mucosa of the lactating ewe, 240
Carcinoma, squamous cell, of the perineum of the goat, 347
Cat, *Peliosis hepatis* in a, 716
Cattle:
abattoir survey of bovine tuberculosis in the Karamoja region of Uganda, 120
artificial insemination in Botswana, 385
bovine cutaneous besnoitiosis in the Sudan: a case report, 85
comparison of indirect haemagglutination tests and serum agglutination tests for the serological diagnosis of *Salmonella dublin* infection in, 727
degenerative myopathy with myoglobinuria in yearling cattle, 292
digestibility and N-balance studies on growing heifers implanted with trienbolone acetate, 170
dry cow therapy: a comparative field trial using benzathine cloxacillin and erythromycin, 639
effect of natural infection with *Salmonella urbana* on the serological status of cattle in relation to tests for brucellosis, 324
efficacy of the measurement of the electrical conductivity of milk for the detection of subclinical mastitis in cows: detection of infected cows at a single visit, 447
evidence for the absorption of reducing sugar from the small intestine of the dairy cow, 17
first results of the field use of BCG vaccine to control bovine tuberculosis in Malawi, 186
infection in Sudanese cattle with *Onchocerca gutturosa* (Neumann, 1910), 76
mid-piece abnormalities in bovine semen following experimental and natural cases of bovine ephemeral fever, 536
mode and secretion of the sebaceous glands of, 610
plaque assay and characteristics of strains of bovine ephmeral fever virus in vero cells, 720
pregnancy, twin, in cattle established by non-surgical egg transfer, 738
relationship between age and development of the anterior teeth in cattle as determined by the oral examination of 2900 animals between the ages of 12 and 60 months, 152
rostral tooth development, the relationship to age in a group of Aberdeen Angus cross Friesian steers, 519
Salmonella dublin abortion in, incidence and epidemiology, 94
studies on the control of coliform mastitis in dairy cows, 160
surveys of bovine blood chemistry in Scotland. I. Serum magnesium, 309
susceptibility of *Sphaerophorus necrophorus* isolated from cattle in the Sudan to chemotherapeutic agents, 356
Century's miscellany, a (see *Br. vet. J.*, Vol. 131, May/June)
Chemical inactivation of swine vesicular disease virus, 317
Chick, spatial preference in the domestic, 560
China, impressions of veterinary education and the practice of veterinary medicine in, 633
Clinical problems of preventive medicine: *Toxocara canis* and other nematodes transmitted from dogs to man, 627
Coenurus cerebralis antigen in sheep, homocytotropic antibody to, 361
Coliform mastitis, studies on the control of in dairy cows, 160
Copper sulphate, the feeding of to growing rabbits, 70

Deer, sedation and restraint of fallow deer with Diazepam, 545
Degenerative myopathy with myoglobinuria in yearling cattle, 292
Dermatophilus congolensis, bacteriological and immunological relationships of the strains of isolated. (Streptothricosis in the domestic donkey, II), 115
Development of puberty in the white Fulani (*Bos indicus*) bull calf, 146
Development of veterinary education in the east of Scotland, 137
Diazepam, sedation and restraint of fallow deer with, 545
Dichlorvos, control of *Gasterophilus intestinalis* (De Geer 1776) with, 89
Digestibility and N-balance studies on growing heifers implanted with trienbolone acetate, 170
Dogs, Experimental *Hammondia hammondi* infection in dogs, oestradiol and testosterone in male, with alopecia and feminization without testicular neoplasia, 65
Donkey, domestic, streptothricosis in. II. Bacteriological and immunological relationships of the strains of *Dermatophilus congolensis* isolated, 115
Donkey, domestic, streptothricosis in. III. Prevalence in Zaria, North-Central state of Nigeria, 108
Dry cow therapy: a comparative field trial using benzathine cloxacillin and erthryomycin, 639
Dyspnoea, lesions of the nasal and paranasal sinuses of the horse causing, 339

Economic review, 250
Editorial, 1, 129, 259, 369, 506
Education, veterinary, development of in east of Scotland, 137
Effect of natural infection with *Salmonella urbana* on the serological status of cattle in relation to tests for brucellosis, 324
Egg transfer, twin pregnancy in cattle established by non-surgical, 738
Eimeria weybridgensis, the occurrence of, and other species of coccidia in lambs in England and Wales, 392
Enteric colibacillosis, fluid balance in. Studies of neonatal calf diarrhoea, I, 190
Enteric colibacillosis, serum and faecal immune globulins in. Studies of neonatal calf diarrhoea, II, 402
Ephemeral fever, bovine, plaque assay and characteristics of strains of virus in vero cells, 720
Equine piroplasmosis: leukocytic response to *Babesia equi* (Laveran, 1901) infection in Chile, 601
Experimental *Hammondia hammondi* infection in dogs, 741
Experimental *Solanum malacoxylon* poisoning in calves, 175

Fasciola hepatica, the immune response of rats to subcutaneous implantation with, 506
Fish pathogen *Aeromonas salmonicida*, possible mis-identification of the, 663
Fleming, George, C.B., LL.D., F.R.C.V.S., founder of *The British Veterinary Journal*, 290
Fluke forecasting, a study of the application of the Stormont "Wet day" system in Scotland, 486

Gametic isolation and hybrid inviability, I. The barriers to interspecific hybridization in domestic and laboratory mammals, 691
Gasterophilus intestinalis (De Geer, 1776), control of with Dichlorvos, 89
Genetics, microbial, recent advances in, 284
Glaucoma in the rat, 213
Goat, squamous cell carcinoma of the perineum of, 347

Haemagglutination and serum agglutination tests (indirect) for the serological diagnosis of *Salmonella dublin* infection in cattle, 727
Haemoglobin type and sodium preference, relationship between in sheep, 222
Homocytotropic antibody to *Coenurus cerebralis* antigen in sheep, 361
Horse:
effect of oral or caecal administration of protein supplements on equine plasma amino acids, 466
equine piroplasmosis: leukocytic response to *Babesia equi* (Laveran, 1901) infection in Chile, 601
Influence of azaperone and metomidate on cardiovascular and respiratory functions in the pony, 50

lesions of the nasal and paranasal sinuses of, causing dyspnoea, 339
respiration in newborn percheron foals when anaesthetized at a medium altitude of 1300 m, 40
Hybridization, the barriers to interspecific in domestic and laboratory mammals. I. Gametic isolation and hybrid inviability, 691

IMIDOCARB dihydrochloride, studies on in experimental *Babesia bigemina* infection in calves, —
Immune response of rats to subcutaneous implantation with *Fasciola hepatica*, 509

LAMBS:
a case of suspected congenital *Toxoplasma* encephalomyelitis in, associated with a spinal cord anomaly, 380
the occurrence of *Eimeria weybridgensis* and other species of coccidia in lambs in England and Wales, 392
relationships between respiration rate, pulse rate, scrotal length, and rectal temperature in merino ram lambs exposed in a hot room at various temperatures, 462
LaSota vaccine, duration of immunity and properties of when given in drinking water for Newcastle disease, 580
Leukemic calf lymph nodes, a leukovirus isolated from cells obtained from, 499
Lymph nodes, leukemic calf, a leukovirus isolated from cells obtained from, 499
Lymphocytosis in normal young pigs, 574

MALAWI, first results of the field use of BCG vaccine to control bovine tuberculosis in, 186
Mastitis in cows, subclinical, efficacy of the measurement of the electrical conductivity of milk for the detection of, 447
Merino ram lambs, relationships between respiration rate, pulse rate, scrotal length, and rectal temperature in when exposed to various temperatures in a hot room, 462
Merino rams, interrelationships between certain characteristics and various body measurements in under field conditions, 351
Methyl bromide or formaldehyde, effect of fumigation with, on poultry house litter naturally contaminated with *Salmonella virchow*, 474
Metomidate and azaperone, influence on cardiovascular and respiratory function in the pony, 50
Microbial genetics, recent advances in, 284
Mid-piece abnormalities in bovine semen following experimental and natural cases of bovine ephemeral fever, 536
Milk, efficacy of the measurement of the electrical conductivity of for the detection of subclinical mastitis in cows: detection of infected cows at a single visit, 447
Milk fever, an apparent reduction in the incidence of achieved by regulation of the dietary intake of calcium and phosphorus, 741
Miscellany, a century's (see *Br. vet. J.*, Vol. 131, May/June).
MK-7-73 and MK-10-73 (two isolates from wild monkeys), properties of, 743
Monkeys, macaque, the incidence and antibiotic sensitivity of *Shigella* bacteria isolated from newly imported, 205
Monkeys, wild, properties of two isolates (MK-7-73 and MK-10-73) from, 743
Mycoplasma hyorhinis and *M. hyopneumoniae*, effects of on pig kidney primary tissue culture, 586
Mycoplasma hyopneumoniae, and *M. hyorhinis*, effects of on pig kidney primary tissue culture, 586
Myopathy, degenerative, with myoglobinuria in yearling cattle, 292

N-BALANCE, digestibility and, studies on growing heifers implanted with trienbolone acetate, 170
Nematodirus abnormalis (May, 1920): isolation, eggs and larvae, preparasitic development, 231
Neonatal calf diarrhoea: identification of a reovirus-like agent in faeces by immunofluorescence and immune electron microscopy, 528
Neonatal calf diarrhoea, studies of. I. Fluid balance in spontaneous enteric colibacillosis, 190
Neonatal calf diarrhoea, studies of. II. Serum and faecal immune globulins in enteric colibacillosis, 402
Neonatal calf diarrhoea, studies of. III. Water balance studies in neonatal salmonellosis, 643
Newcastle disease vaccines: a study of duration of immunity and properties of LaSota vaccine given in drinking water, 580
Nursing and suckling behaviour of pigs. III. Behaviour when milk ejection is elicited by manual stimulation of the udder, 416
Nursing and suckling behaviour of pigs. IV. Effect of interrupting the sucking stimulus, 549

OCCURRENCE of *Eimeria weybridgensis* and other species of coccidia in lambs in England and Wales, 392
Oestradiol and testosterone in male dogs with alopecia and feminization without testicular neoplasia, 65
Onchocerca gutturosa (Neumann, 1910) infection in Sudanese cattle, 76

Peliosis hepatis in a cat, 716
Phycomycosis, experimental, enhancement of susceptibility to, by agents producing reticuloendothelial stimulation, 622
Physiological aspects of sperm transport in the domestic pig, *Sus scrofa*. I. Semen deposition and cell transport, 565. II. Regulation, survival and fate of cells, 681
Pigs:
chemical inactivation of swine vesicular disease virus, 317
effect of azaperone on post-mortem changes in pig and rabbit skeletal muscle, 102
effects of *Mycoplasma hyorhinis* and *M. hyopneumoniae* on pig kidney primary tissue culture, 586
food intake regulation in pigs. IV. The influence of dietary threonine imbalance on food intake, dietary choice and plasma acid patterns, 595. V. The influence of dietary amino acid pattern on free choice of food selection in, 707
lymphocytosis in normal young, 574
nursing and suckling behaviour of. III. Behaviour when milk ejection is elicited by manual stimulation of the udder, 416
nursing and suckling behaviour of. IV. Effect of interrupting the sucking stimulus, 549
physiological aspects of sperm transport in the domestic pig, *Sus scrofa*. I. Semen deposition and cell transport, 565. II. Regulation, survival and fate of cells, 681
some aspects of reproduction in pubertal gilts fed rapeseed meal from four and a half months old, 256
swine dysentery, the possibility that *Campylobacter (vibrio) coli* and *Treponema hyodysenteriae* are both involved in, 335
Poultry house litter naturally contaminated with *Salmonella virchow*, effect of fumigation with methyl bromide or formaldehyde on the infectivity of, 474
Puberty, development of, in the white Fulani (*Bos indicus*) bull calf, 146

RABBIT, effect of azaperone on post-mortem changes in pig and rabbit skeletal muscle, 102
Rabbits, the feeding of copper sulphate to growing, 70
Rapeseed meal: some aspects of reproduction in pubertal gilts fed rapeseed meal from four and a half months old, 256
Rat, glaucoma in the, 213
Rats, the immune response of, to subcutaneous implantation with *Fasciola hepatica*, 509
Recent advances in microbial genetics, 284
Relationship between age and development of the anterior teeth in cattle as determined by the oral examination of 2900 animals between the ages of 12 and 60 months, 152
Relationship of rostral tooth development to age in a group of Aberdeen Angus cross Friesian steers, 519
Research in farm animal behaviour, 272
Respiration in newborn percheron foals when anaesthetized at a medium altitude of 1300 m, 40
Reticuloendothelial stimulation, enhancement of susceptibility to experimental phycomycosis by agents producing, 622

Salmonella california contamination of a turkey feed concentrate, 673
Salmonella dublin abortion in cattle: incidence and epidemiology, 94
Salmonella dublin infection in cattle, a comparison of indirect haemagglutination tests and serum agglutination tests for the serological diagnosis of, 727
Salmonella Kauffmann-White group N serotypes, stimulation of protective immunity to by *Brucella abortus* and *Yersinia enterocolitica antigens*, 625
Salmonella urbana, the effect of natural infection with, on the serological status of cattle in relation to tests for brucellosis, 324
Salmonella virchow, effect of fumigation with methyl bromide or formaldehyde on the infectivity of poultry house litter naturally contaminated with, 474
Scotland, the development of veterinary education in the west of, 3
Scotland, east, the development of veterinary education in, 137
Scotland, a study of the application of the Stormont "Wet day" fluke forecasting system in, 486
Scotland, surveys of bovine blood chemistry in (I. Serum magnesium), 309
Sebaceous glands of cattle, mode of secretion of, 610
Serum magnesium. I. Surveys of bovine blood chemistry in Scotland, 309
Sheep:
Border disease of. Comparison of the results of serological testing using complement fixation, immunodiffusion, neutralization and immunofluorescent techniques, 427
carbonic anhydrase activity in the abomasal mucosa of the lactating ewe, 240
case of suspected congential *Toxoplasma* encephalomyelitis in a lamb associated with a spinal cord anomaly, 380
homocytotropic antibody to *Coenurus cerebralis* antigen in sheep, 361
interrelationships between certain scrotal characteristics and various body measurements in merino rams under field conditions, 351
observations on the experimental transmissibility of Border disease in, 32
occurrence of *Eimeria weybridgensis* and other species of coccidia in lambs in England and Wales, 392
relationship between sodium preference and haemoglobin type in, 222
relationships between respiration rate, pulse rate, scrotal length, and rectal temperature in merino ram lambs exposed in a hot room at various temperatures, 462
reproductive performance of British breeds of sheep in an equatorial environment. III. Further data on imported ewes and their progeny, 23
studies on the spread of *Toxoplasma gondii* to, 130
Shigella bacteria, the incidence and antibiotic sensitivity of, isolated from newly imported macaque monkeys, 205
Skeletal muscle, the effect of azaperone on post-mortem changes in pig and rabbit skeletal muscle, 102
Sodium preference and haemoglobin type, relationship between in sheep, 222
Solanum malacoxylon, experimental poisoning in calves, 175

Spatial preference in the domestic chick, 560
Sperm transport in the domestic pig, *Sus scrofa*, physiological aspects of, I. Semen deposition and cell transport, 565. II. Regulation, survival and fate of cells, 681
Sphaerophorus necrophorus, isolated from cattle in the Sudan, susceptibility to chemotherapeutic agents, 356
Squamous cell carcinoma of the perineum of the goat, 347
Streptothricosis in the domestic donkey, 108, 115
"Stress", the term in a veterinary context, 653
Studies on the control of coliform mastitis in dairy cows, 160
Studies on the spread of *Toxoplasma gondii* to sheep, 130
Suckling behaviour of pigs, 416, 549
Sudan, bovine cutaneous beanoitiosis in the, a case report, 85
Sudan, *Onchocerca gutturosa* (Neumann, 1910) infection of cattle in the, 76
Sudan, susceptibility of *Sphaerophorus necrophorus* isolated from cattle to chemotherapeutic agents in the, 356
Sugar from the small intestine of the dairy cow, evidence for the absorption of reducing, 17
Swine vesicular disease virus, chemical inactivation of, 317

TEETH, the relationship between age and development of the anterior, in cattle as determined by the oral examination of 2900 animals between the ages of 12 and 60 months, 152
